WEBINAR INFORMATION

- Zoom functions better using Google Chrome or Safari (for Apple users). Internet Explorer can be used but isn't necessarily the best option
- Access to a phone may be required for audio if the participant's computer does not include speakers.

PRESENTERS

► KEITH CUSTER

FBI Complex Financial Crimes

Since joining the FBI in 2007, Supervisory Special Agent (SSA) Custer has been assigned to both Counter Terrorism and Complex Financial Crime squads at the FBI's Baltimore Field Office. In that time, he has investigated numerous federal crimes including wire fraud, money laundering, identity theft, transnational organized crime, healthcare fraud, mortgage fraud, embezzlement, major procurement fraud, theft from government programs, and material support of terrorism.

► ANDY ENDERS

Enders Insurance

Andrew Enders is a recovering attorney. In August 2011, Andy hung up his badge and broke out his insurance license. After 5 years with the Dauphin County District Attorney's Office serving under Hon. Edward M. Marsico, Jr., Andy returned to the family business. First, Andy developed the goal to educate his clients about diagnosing risk. Then, it is all about determining the right coverage and implementing the best program. Working closely with clients lets Andy build a relationship that is hyper-focused on the client. Best of all, he can break down the coverage into easy-to-understand terms.

► KEELY BINGAMAN

VP, Fraud Investigation Manager, Orrstown Bank

► MIKE JAEGER
